MEGAFLOW BASICS™

The Basics of High-Speed AC/R System Evacuation

**Rated To
20 Microns**

Faster Evacuation Made Simple

The MegaFlow Basics Kit helps a technician remove restrictive valve cores and perform AC/R system evacuations up to **10X Faster**.

Even through 1/4" access ports, you can evacuate faster, simply with fewer restrictions and larger diameter hoses.

With these AC/R Evacuation Essentials, your vacuum pump can finally reach its true potential.

Evacuating a 10-ton System to 500 microns

6-ft, 1/4" hose through valve core	40 min.
6-ft, 1/4" hose with core removed	19 min.
6-ft, 1/2" hose with core removed	3 min.

* NIST-traceable results. All connections made with 1/4" FL fittings.

- Vacuum-Rated Valve Core Tool removes restrictive cores
- Opens up over 90% of internal diameter of access port
- Large diameter, vacuum-certified, 1/2" evacuation hose
- Allows up to **16X more flow** than 1/4" hose
- Vacuum-Certified hoses don't collapse or permeate
- Every hose evacuated and tested after production
