

2020 Wholesaler Catalog

Refrigerant Recovery

AC/R System Evacuation

Digital Measurement & Service Tools

About the Wholesaler Catalog . . .

At Appion Inc. our goal isn't only to create great products for technicians. We continuously strive to improve the AC/R industry through innovation and education. Appion is improving the Manufacturer to Wholesaler to Customer experience. Nothing can be more frustrating for a customer than not knowing what product or parts to order, or where they can find them. We want to make it easy and simple for your customers to purchase Appion products, and for your team to have all the support they need.

The Wholesaler Catalog contains all of the Appion products and parts that are available to our Wholesalers. Over the years Appion has strived to make the best AC/R service tools possible, and with this approach our products are consistently updated and upgraded. This has led to an abundance of repair kits, replacement parts and an extensive list of part numbers. In order to reduce the number of Appion SKU's, everything not contained in this Wholesaler Catalog is now classified as a Factory Support Item. These Factory Support Items are still available for your customers- contact Appion Inc. for details.

Appion is going beyond great products and some of the best customer service in the industry. We strive to educate current and future technicians and now we want to give your customer the best purchasing experience possible.

Why Remove Your Valve Cores?

Valve cores block up to 90% of the access port.
 Removing them maximizes flow and could
 save hours on any job.

Evacuation

Perform AC/R System Evacuation up to 10X Faster

Available in

Standard 1/4in or Ductless 5/16in

Evacuation a 10-ton System to 500 Microns

Hose Size	Restriction	Job Time
6-ft, 1/4 in	Valve Core*	40 mins
6-ft, 1/4 in	None	19 mins
6-ft, 1/2 in	None	3 mins

*Indicates the system was evacuated through the valve core installed in the access port. All connections made with 1/4 in FL Fittings. Results may vary.

Did You Know:

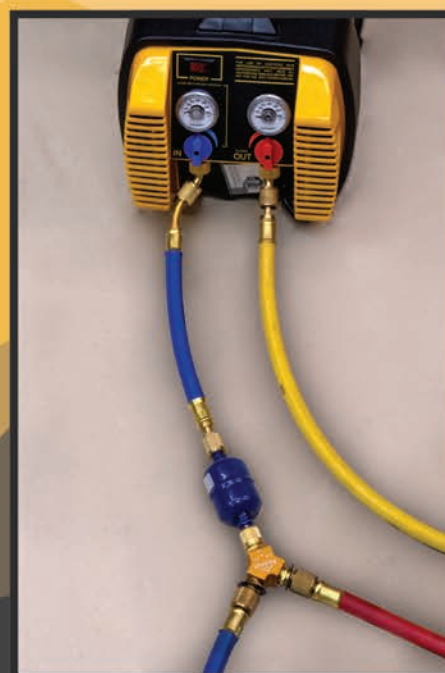

Vacuum-Rated hoses won't permeate or collapse in a deep vacuum.

Recovery

Fast and Simple Manifold-Less Recovery

Want Fast and Simple Recovery?
With the MegaFlow™ Speed-Y, fast recovery is simpler than ever. No manifold, no tangle of hoses, and reduced connections. The Speed-Y enables Full Flow to any recovery unit, without all the hassle of a manifold.
