

# **Solenoid Magnet 18mm™**

**Manual Solenoid Valve Control - Optimize troubleshooting and gain access to the entire system during recovery and evacuation when electronic control of solenoid valves is not available.**

## ✓ **Universal Fit**

- Designed to seamlessly fit all common industry solenoid valves with stems up to 18 mm in diameter.

## ✓ **Powerful Performance**

- The strong neodymium magnet effortlessly activates 2-way solenoids, 3-way reclaim valves, and 4-way reversing valves.

## ✓ **Rugged Reliability**

- The magnet has a protective rubberized coating and comes with a durable 1680D ballistic polyester case for safe transport and storage.

## ✓ **Ergonomic Non-Slip Grip**

- A comfortable, textured grip ensures a secure hold even in oily or dirty conditions.

## ✓ **Compact & Convenient**

- The compact design and carrying case fit comfortably in your toolbag, ensuring it's always on hand when you need it.
